

Vulnerability Exposure

Tenable Nessus Advanced Course On-Demand Training

Tenable University

Tenable Nessus Advanced Course

The Tenable Nessus Advanced Course consists of a series of on-demand videos providing knowledge and skills necessary to effectively use Tenable Nessus Expert, the industry standard vulnerability assessment solution featuring Infrastructure as Code (IaC) and External Attack Surface Assessment. Utilize the most common features and functionality to ensure success and achieve quick time to value.

Overview

This course is available as an On-Demand Training (ODT). Participants will learn advanced skills of the Tenable Nessus vulnerability assessment solution. Content includes attack surface discovery, basic and in-depth IAC scanning options using Terrascan, web app scans, and results analysis.

The course features a blend of lectures and demonstrations, all designed to promote active engagement and enhance learning outcomes.

Audience

The Tenable Nessus Advanced Course is suited for professionals interested in gaining expert-level knowledge and skills of Tenable Nessus.

Prerequisites

We highly recommend that all participants complete the **Tenable Nessus Fundamentals Course** at **Tenable University** before attending this course.

Key Benefits

→ Product-based Demonstrations

View practical, real-world demos showing Tenable products in realistic scenarios

→ On-Demand Scheduling

Pre-recorded courses are available on your schedule, at your pace to view remotely at Tenable University

→ Unlimited Viewing Access

Upon purchase, you have access for one (1) year with unlimited viewing ability.

→ Digital Badge and Certificate

Upon passing the final knowledge exam, you will receive a digital badge and Certificate of Completion.

Registration

Contact sales@tenable.com for registration information or purchase at tenable.com/buy/training.

ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for more than 44,000 customers around the globe. Learn more at tenable.com.
