Tenable OT Security Specialist Course Instructor-led Training

Tenable University

Tenable OT Security Specialist Course

The Tenable OT Security Specialist Course will give you the knowledge and skills you need to effectively utilize our OT Security solution to protect industrial networks from cyber threats. As IT and Operational Technology (OT) infrastructure have converged, the attack surface has expanded. Industrial Control System (ICS) security capabilities from Tenable help you maximize the safety and reliability of your OT environment to decrease your risk.

Overview

This course is available as either a two-day Virtual Instructor-Led Training (VILT). Participants will learn how to set up and manage the Tenable OT Security platform, how to manage assets, and how to proactively detect and mitigate threats using a risk-based approach. Content also includes policy configuration, integration with Tenable Security Center, and troubleshooting.

The course also features a blend of lectures, demonstrations, and interactive lab exercises, all designed to promote active engagement and enhance learning outcomes.

Audience

The Tenable OT Security Specialist Course is suited for professionals with operational responsibilities who want to expand their knowledge to maximize the solution's effectiveness. It is recommended for those seeking to obtain a Specialist-level product certification.

Prerequisites

We highly recommend that all participants complete the free [Tenable OT Security Introduction Course](#) at [Tenable University](#) before attending this course.

Key Benefits

→ Hands-on Lab Environment

Gain practical, real-world experience with Tenable products in realistic scenarios

→ Flexible Scheduling

Live instructors teach courses remotely from multiple time zones to meet your availability requirements

→ Knowledge You Can Use

Maximize the safety and reliability of your operational technology environment

→ Prepare for Certification

Excellent preparation for those seeking to obtain Tenable OT Security Specialist Certification

ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for more than 44,000 customers around the globe. Learn more at tenable.com.
